

2019 Competitive Leading Edge Series Justification

October 25, 2018

The 2019 Competitive Leading Edge current standings have been updated to remove the previously posted Pre-Novice Women's scores at the 2018 Peace Region STARSkate Invitational. This event was the Level 1-4 Arctic Winter Games run-off categories and was incorrectly listed as Pre-Novice Women.

Skaters placed in Pre-Novice Women in the Leading Edge Series because of their scores from the Peace Region STARSkate Invitational have been removed. This may change the category under which their scores fall into.

For example: Skaters competing in Juvenile Women U12 throughout the season and competed at the Peace Region STARSkate Invitational in Levels 1-4, would now have their scores counted into the Juvenile Women U12 Leading Edge current standings.
