

Qualification to Challenge 2019-2020

As part of Skate Canada's review of our qualifying structure and in consultation with all sections, it has been decided that the National Summer Series will no longer serve as a method of qualification for Challenge effective for the 2019-2020 season. National Summer Series events will remain an important part of the competition structure as we continue to examine the qualification process.

The [Procedure for Filling Challenge Entries](#) will be updated with these changes in early June and the rules relating to the National Summer Series in the [Competitions Rule](#) will be updated to reflect this change as of July 1st, 2019. If you have any questions please consult Holly Henderson Section Technical Director.

Qualification to Challenge will only be through the section or pursuant to a bye as outlined in the [Byes section of the Competitions Rule](#)
