

2022 NWT Territorials STARSkate Invitational

Amendments to the Announcement

January 7, 2022

Please note the following amendments:

Competition Format and Event Postponement

The NWT is currently under new temporary restrictions that is not allowing skaters in NWT the ability to train for this event, therefore the event is postponed. Also, due to NWT covid restrictions, the event will now be remote officiated with skaters submitting videos. The event will not be skated in person.

Due to these changes, the event will not be run on the originally planned weekend.

The new date and video submission deadlines will be set once the restrictions are lifted.

Registration Extended

The registration deadline date has been extended to January 12 at noon MT.

Video Submissions Process

A training session will be provided to the coaches of the registered skaters for the competition. This will provide them with information on how to best video their skaters and how to submit the videos.
