Team Event Element

All Teams, including coaches, will be on the ice during the competition.

The Technical Representative (or a designated official) and the Chief Data Specialist will draw for the skating order of the elements and the teams at the pre-competition meeting. This order will be followed for the skating of each element. All teams must execute an element before the competition progresses to the next element.

Each Skater will execute one element from the following list. Each element will be executed twice and a mark awarded to the best execution. The technical panel will identify the performed element and the Level of Difficulty (if applicable) and the judges will award a Grade of Execution (GOE). A mean will be calculated for each element and the score for all elements will be summed. The team with the highest score will be awarded first place, the second highest ranked team will be awarded second place and so on.

Team coaches will determine which element each team member will perform. Lists must be submitted to the referee at the pre-competition meeting.

In the event that a team has less than eight (8) Skaters, a member from the same Unit may complete in more than one (1) element to a maximum of four (4) Skaters completing two (2) elements each.

Units, with less than 8 skaters and without skaters competing in every Level, may make request to the Technical Advisor for skaters from other Units to join their team. The number of skaters that may be added to a team will be the number required to make up a full team of 8 skaters. The addition of skaters from other Units should be from the list of skaters who are competing in Levels for which the recipient Unit has no skaters.

All other Units will have the option of sharing Skaters. The referee will randomly draw from the Units who agree to share Skaters, first the name(s) of the Units who will share Skaters and then the name of one Skaters from the chosen Unit(s). The Skaters whose names are

Exhibition

A Figure Skating Exhibition will be held on the final day of competition and is open to Arctic Winter Games Figure Skaters. Overall gold medal winners (combined results from the short and long programs) will skate an exhibition at the final ceremonies for Figure Skating.

TECHNICAL PACKAGE
2023 ARCTIC WINTER GAMES

Skaters shall choose their Short program, Freeskate program or a prepared exhibition program (the exhibition program cannot exceed the Freeskate times for their respective event).

In order to enhance the cultural experience at the games, Skaters in each competitive level will work with their fellow Skaters within their level to develop a group number that will be presented with the exhibition Skaters (gold medal winners) that accompany the final ceremonies for Figure Skating. All Skaters in all levels will participate in a closing “Finale” to close the Figure Skating events at the Arctic Winter Games.

Music will be provided by the host society (for group and finale numbers only) and pairs or teams of coaches will be assigned to assist each group in preparing for the final event. The coaches will be assigned at the opening meeting for figure skating. Coaches and Skaters are expected to work on choreography during the week of the Games.

A schedule of practices (off ice and on ice) will be provided at the opening meeting for figure skating.

The team outfit (ie: jackets, costumes/dresses, team uniform) will be used for the group number unless the Skater has been awarded a gold medal (they would use their competition uniform throughout the exhibition).

No medals are awarded for this exhibition.

Schedule

The Host Society shall distribute a first draft of the Master Sport Schedule - a detailed multi-sport schedule, including: competitions, practices/training, pre-Games Coach/Manager meetings and all technical meetings - to the AWGIC and each Participating Unit’s Chef de Mission for review no later than 1 year (12 months) prior to the commencement of the Games (Opening Ceremony). The Master Sport Schedule becomes “final” three (3) months prior to the commencement of the Games, unless otherwise approved by the AWGIC. A final review and approval of the Master Sport Schedule must be conducted by the AWGIC Technical Director prior to being considered “final”.

The Master Sport Schedule is developed by the Host Society in consultation with the Sport Vice President, Sport Chairs and the AWGIC as required. The sport schedule is developed using the Sport Technical Packages and by reviewing the sport schedules from previous Games.

The Host Society shall:

TECHNICAL PACKAGE
2023 ARCTIC WINTER GAMES

- Create a process for stakeholders to provide input and request changes to the schedule;
- Revise and update the Master Sport Schedule, redistributing updated versions as required on an ongoing basis between 12 months pre-Games and the end of the Games.

The Host Society, to the best of their ability shall:

- Refrain from scheduling any competition or practice/training within three (3) hours of the beginning of the Opening Ceremony;
- Respect the timing required for participant feeding, transportation and marshaling for opening and closing ceremonies;
- Ensure that practice/training during the first day of the Games reflects the travel realities of Participating Units (e.g., Units with the least amount of travel should be scheduled to practice/train and/or compete first upon arrival in the Host jurisdiction, where Units with the most travel should practice/train and/or compete last).

8. Music

All music used must be in the public domain or covered by the performing rights societies. Skaters who have music composed specifically for their programs either wholly or in part, are responsible for obtaining a written release from the composer for the use of such music on radio and/or television or appropriate clearance from the performing rights societies.

Each Skater will load an mp3 of both their short program music and free program music to the web site by January 4, 2023.

On site, each Skater will provide 1 CD stick as backup of their music. Copies must be turned in at registration prior to their first team practice.

The following requirements for CD's must be met:

- Only one program shall be recorded on each CD
- The start of the music shall be recorded on the CD with less than two (2) seconds of lead in Skater's name followed by Level, program type - short or free - and music time (not skating time) shall be clearly printed on one side of the CD
- Each CD shall be enclosed in its plastic container, also marked with the Skater's name, AWG contingent, Level, program type – short or free - and total music time

Skaters are responsible for the recovery of their own music at the completion of the event. The Arctic Winter Games will accept no responsibility against damage but will take every precaution to safeguard each USB/CD.
