

# Mannville Momentum

**Sunday, December 3, 2023**  
**Mannville Recreation Center 5202 52 Ave.**  
**Mannville, AB**

**Hosted by The Mannville Skating Club**

**Event Sanction #3163**

The purpose of this Event is to provide skaters with the opportunity to showcase their skills in a fun and interactive environment. In support of Skate Canada's on-going implementation of the Long-Term Athlete Development Model, the CanSkate Element Event has been formatted to recognize the philosophies of the Learn to Skate stage. This Club level event ideally takes place after a 10-week CanSkate session so that skaters have had the chance to learn all the skills on their current stage. The focus of the Event is on individual skill improvement and therefore performances are not ranked.

### **Category Specifications**

Results will be tabulated for each individual separately. Skaters do not compete against each other for a ranking since awards are based on performance standards alone.

## **STANDARDS OF PERFORMANCE**

The desired performance standard for each Element is defined by three levels: Gold, Silver and Bronze. Each performance level consists of three features. To achieve a Bronze, Silver or Gold award level on any Element, the skater must demonstrate the first (bolded) feature at or above that level and they must demonstrate at least one other feature of the Element at or above the award level. Performance standards are measured in proportion to the skater's age, size, and physical strength. Example: A smaller 6-year old skater and a taller 8-year old skater may each receive "Excellent" for the speed demonstrated in an Element even though the 8-year old performed the skill at a much faster speed.

## **CONDUCT OF THE EVENT**

### **Warm-up groups:**

Skaters will complete the competition in warm-up groups of no more than six skaters. The skating order within each warm-up will be the order in which each skater will complete the elements.

### **Warm-up Time:**

Each group is awarded a three-minute warm-up at the beginning of their flight.

### **Execution of each Element:**

Within each warm-up group, skaters execute one attempt at each Element. Skaters will be called over to the test ice surface one at a time to demonstrate each of their elements. Each warm-up group of competitors must complete all Elements of the stage before the next warmup group can begin.

**Progression through the Event:**

After each skater has completed their Elements, they are to leave the ice surface.

**Music:**

There will be music during the warmup portion of the Elements.

**Event Schedule:**

Any two warm-up groups can compete at the same time with different judging panels. Skaters are to be at the arena 45 minutes prior to their scheduled skate time.

**Results Calculation:**

For each category, the overall performance award given is the total of the individual Element. Award levels defined as follows:

**GOLD:**

At least two Elements at the Gold level and no Element lower than a Silver

**SILVER:**

At least two Elements at the Silver level and no Element lower than a Bronze

**BRONZE:**

At least two Elements at the Bronze level

**\*\*\*\*Awards will be presented 15-20 minutes after each flight, in the designated area. \*\*\*\***
