Short programs, long programs and Artistic programs are each separate categories and qualification is considered separate for each of these categories.

Qualifying Scores Process

1. The top 5 qualifying skaters from a zone will be selected based on scores earned in their category.
 - o Each Star Series competition will automatically qualify the top 5 skaters whose home club is located in that particular zone. *There will be no automatic qualifications out of Combined Winter Invitational.
2. The scores of each skater will be tracked and posted to the Skate AB | NT | NU website after each qualifying competition. If a skater competes in a second qualifying competition, then the skaters higher score will be used.
3. If the skater enters a qualifying competition and they are the sole entry (exhibition skate), if they choose not to skate an exhibition, their entry into the competition will still count towards their 1 minimum required qualifying competition.
4. By January 30, 2024, the additional number of maximum entries that may qualify per category will be posted to the Skate AB | NT | NU website. This will be based on an estimated schedule for the competition. Quota numbers will be determined per category based on historical

registration at the Championships and based on review of the final registration numbers for the Star Series competitions.
