Holly Henderson's Departure – July 31, 2025

Dear Skate AB|NT|NU Members, Clubs, Coaches, Officials, Sponsors and Partners,

It is with both gratitude and sadness that we inform you that Section's Technical Director Holly Henderson, will be leaving the Skate AB|NT|NU Section team effective July 31, 2025.

Holly has been employed for 17 years, first as the Athlete Development Manager and most recently as the Technical Director. She has been an indispensable part of our organization, contributing significantly to the development and success of our athletes and programs.

Throughout her career, Holly has developed exemplary working relationships with Skate Canada officials, employees, and volunteers, within our Section and across the country. She has been a valuable resource for athletes and coaches, continuously evaluating and adapting programs to meet evolving team and individual needs. Her knowledge of the sport at the local, national, and international level speaks to the deep, life-long commitment that she has made to figure skating. Her work was always delivered with passion and enthusiasm.

As the Lead of the Athlete Development Committee, Holly has been a fearless advocate with an athlete-first focus. From the Star Pathway through Learn-to-Win and Skating-for-Life, she supported countless athletes and coaches in their endeavours. Her work helped many Section athletes on their journeys through monitoring, seminars, and competition support. Holly also championed countless initiatives and activities related to athlete, coach, and officials' development, and always looked for creative ways to propel our Section forward.

Holly's extensive knowledge and expertise will be missed immensely, and her commitment and passion will be fondly remembered.

Please join us in expressing our gratitude to Holly for her years of dedicated service to the Section. Her contributions will certainly leave a lasting impact.

The Skate Canada team will support the Section to ensure there is uninterrupted support for our athletes and coaches this summer and fall as they prepare for the season.

Kind Regards,

Skate AB|NT|NU Board of Directors
