This competition zone listing is to be referenced prior to a skater registering for a Star Series competition. The competition zones are created for the purpose of providing first opportunity to register to those skaters who reside in the zone.

For example: a club is listed in zone 1 - skaters of that club will have first opportunity to register for the Star Series 1 competition for a set period of time as stated in the competition announcement. Following that period of time, registration will open to skaters who reside outside of that zone, if space allows. This process does not guarantee skaters entry into the competition, however it provides them with the first opportunity to register.
